Walter Kirby – Sam Dunningham Award

If you wish to enter this section of the Walter Kirby Music Competition, here are some general guidelines for you to think about.

Firstly, this award was named in honour of one of our highly accomplished Old Boys, and presented to the school by his mother, Miriam Dunningham and family. Sam was studying to be an audio engineer, when his life was tragically cut short. His family would like his love of music and recording music to be remembered and honoured with this award.

As Sam was a sound engineer, this award is for those students who wish to **record**. You can use school equipment, your own, a professional studio or website. You need to provide a CD recording of your work – you may include one or several songs/pieces.

You must enter this award as an individual.

What the judges are looking for:

- A quality recording
- Evidence of editing – you could write out in words your process or provide several recordings, showing your editing process
- A genuine interest in the process of recording music
